If you are unsure an Executive Flight Coordinator is always available to discuss your specific requirements and recommend the best solution for your travel needs.

Will the aircraft wait for me or return to pick me up?

The aircraft is scheduled according to the specific needs of each customer. Based on your unique travel itinerary, Partner Jet will determine whether it is most efficient for the aircraft to wait for you at your destination or whether it should return for you at a later date. Generally speaking, for same day return and two day trips -- it is almost always more economical for the aircraft to wait
